

# Share Reuse Repair Hub

A great resource for locals.

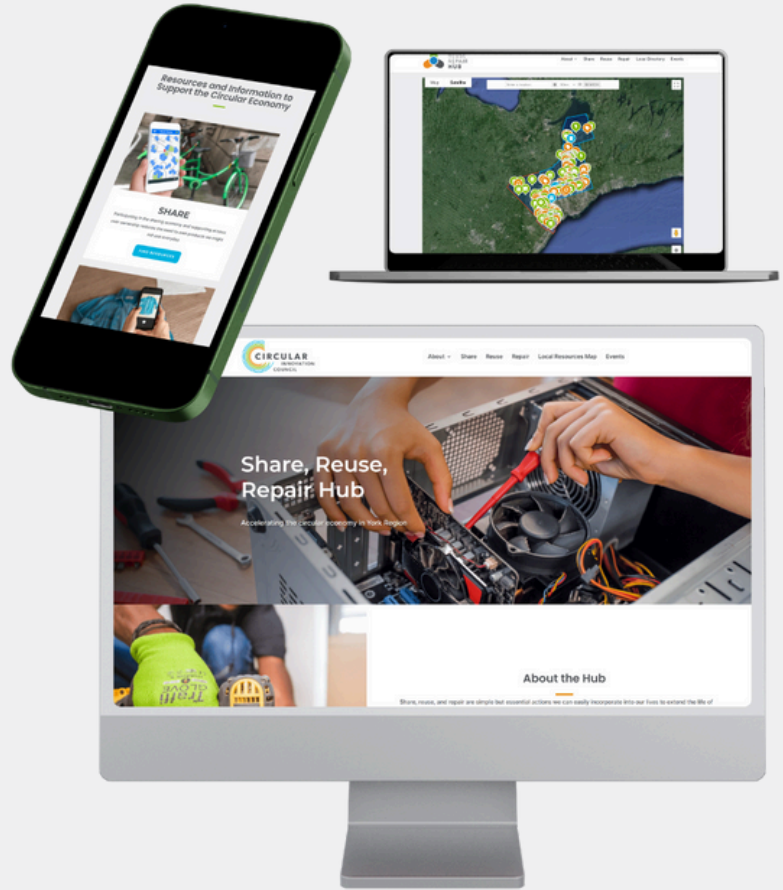

A great resource for sustainable businesses like yours.

Promote the sustainable work your business does with the Share Reuse Repair Hub!

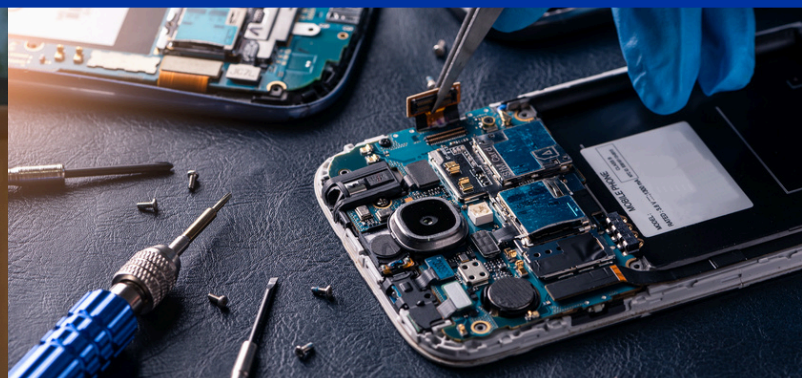

The Hub provides tools and resources to empower your local business to take part in the circular economy.

Your business could be featured on the Local Directory Map or the share, reuse, repair pages.

If your business reduces single-use waste, redirects waste from landfill, lends its inventory, sells second-hand products, and more, this is the opportunity for you!
